# Faster, Smarter, More Efficient Design Reviews

Perform High-Quality, High-Speed Reviews with Bluebeam Revu

Bluebeam® Revu® accelerates your design review while boosting quality. With the ability to mark up and collaborate on the same documents in real time, key stakeholders are empowered to get the job done – in the office, in the field or across the globe.
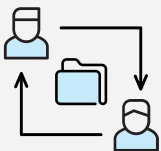

Revu Makes It Possible

Mark up and Compare

- Markup 2D and 3D PDFs with customisable text, clouds, callouts, CAD symbols, images and stamps to easily identify changes
- Sort, filter and export reports from one centralised Markups List
- Automatically identify the differences between two drawing revisions with easy-to-see clouds

Communicate

- Reduce costly changes with timely design feedback
- Invite project partners to connect anytime, anywhere
- Mark up a single document with project partners across the globe simultaneously

SHARE

- Avoid printing and shipping costs and delays by digitising documents and workflows
- Boost accuracy and efficiency with one source of truth
- Always share the most recent version of a document

See for yourself why Bluebeam Revu is used by 99% of top U.S. contractors and 74% of top international design firms. *

*Top 50 firms by revenue, as reported by Engineering News-Record
